

ATV001

Ideal Choice of Hand Seismic Protection

DESCRIPTION:

- The palms and fingers are covered with latex pads to absorb vibration and provide strong seismic protection.
- The unique block latex pad does not affect the grasping behavior and can provide comprehensive seismic performance under the grasping condition
- Excellent anti-vibration performance has passed EN ISO10819:2013 test standard
- Excellent wear resistance and tear resistance

APPLICATIONS:

- Machine manufacturing / Logging / Architectural engineering / Petroleum resource

Technology Data	Multipurpose	M Medium weight
Art . No	ATV001	
Structure	Knitting	
Material	Polyester fiber	
Coating	Latex	
Surface effect	Palm Latex	
Cuff Style	Knitting cuff	
Length	250-270mm	
Colour	Black	
Size	L	
Package	1pair/pack , 50pairs/carton
