

ZETEX

Liquid Nitrogen Gloves

DESCRIPTION:

- Protective Range : - 160 to 260 degrees Celsius
- Superior mechanical performance, flexible operation
- Superior cold proof and waterproof characteristics, breathable and comfortable to wear
- It is made of multi- layer imported anti low temperature composite materials, suitable for use in extremely cold environment

APPLICATIONS:

- Suitable for all in the presence of liquid nitrogen and other cryogenic gases. To prevent cold contact and to prevent the leakage of liquid gas from burns.

Technology Data	 Multipurpose	M	Medium weight
Art. No	ZETEX		
Structure	Sew		
Material	Low temperature resistant composite		
Coating	-		
Surface effect	-		
Cuff Style	Straight cuff		
Length	-		
Colour	Blue		
Size	320mm / 380mm / 480mm / 680mm		
Package	1pair/ pack
